EDUCATION	PhD Mathematics - CDT Mathematics of Random Systems, Imperial College London - University of Oxford 2022-2025 • Deep Learning, Mathematical Finance, Rough Paths Analysis. • Supervised by <i>Dr. Cristopher Salvi</i>. • Researching scaling limits of Neural Networks • Working in theoretical foundations for State Space Models. • Developing new Kernel Methods for Time Series analysis. MSc Mathematics, University of Pisa - ETH Zürich 2021-2022 • Honour's degree (110/110 cum Laude) GPA 30 cum Laude / 30 • Stochastic Calculus, Stochastic PDEs, Mathematical Finance, ML in Finance. • Thesis: <i>Kernel Methods on Path Spaces</i> supervised by <i>Prof. Josef Teichmann</i>. BSc Mathematics, University of Pisa 2018-2021 • Honour's degree (110/110 cum Laude) GPA 29.88/30 • Thesis on advanced topics in Geometrical Model Theory.
EXPERIENCE	Intern - Quant Researcher, Quadrature Capital London July - Sept 2025 Deep learning for financial markets. Intern - ML Researcher, Cartesia AI San Francisco Feb - May 2025 Research on new ways to distill LLMs to different architectures, depths and sizes. Research on development of ViT models capable of multi-modal reasoning. Industry Project - Neural Signature Kernels, Imperial College London June 2024 Co-organized 2024 CDT Industry Project and supervised PhD students in applying Neural Signature Kernels to time series analysis. Teaching Assistant - Stochastic Calculus for Finance, ICL Business School Oct - Dec 2023 <i>MSc Risk Management & Financial Engineering</i>. Taught exercise classes. Industry Project - Brain signal analysis with Signatures, Imperial College London June 2023 Challenge: analyze MEG data from several subjects, detect the one who had a seizure. Our team used Signature techniques, the success and clarity of our results won the competition. Teaching Assistant - Numerical Methods for Finance, Imperial College London Feb 2023 <i>MSc Mathematics and Finance</i>. Taught exercise classes.

TALKS	Oxford-ETH Workshop in Mathematical Finance , Oxford University June 2025 Title: <i>Signature Reconstruction from Randomized Signatures.</i> Workshop on Recent Developments in Theoretical Machine Learning , Imperial-X Jan 2025 Title: <i>Graph Expansions of Deep Neural Networks.</i> Stochastic Analysis Seminar , ShanghaiTech University Nov 2024 Title: <i>Theoretical Foundations of Deep Selective State-Space Models.</i> DataSig - Rough Paths Interest Group , Alan Turing Institute May 2024 Title: <i>Signature Reconstruction from Randomized Signatures.</i> Computer Vision Group Seminar , University of Michigan April 2024 Title: <i>Theoretical Foundations of Deep Selective State-Space Models.</i> Talks in Financial and Insurance Mathematics , ETH Zürich Dec 2023 Title: <i>Neural Signature Kernels (and Trees).</i> 7th London-Paris Bachelier Workshop, Imperial College London Sept 2023 Title: <i>Rough Kernel Hedging.</i>	
AWARDS	Doris Chen PhD Award, Imperial College Math Department 2025 Excellence award for significant doctoral research progress. NeurIPS 2024 Scholar Award, Neural Information Processing Systems Foundation 2024 INDAM Scholarship, Istituto Nazionale di Alta Matematica 2022 Two year scholarship from the Italian Institute of Higher Mathematics. Placed 2nd at National level.	
COMPETENCES	Languages Italian (<i>native</i>), English (C1), French (<i>basic</i>) Technical Skills Python, Jax, Pytorch, Triton, CUDA, R, Matlab, Java
